

SUBSCRIPTION RATES:  
One copy, one year, \$5.00  
One copy, six months, \$3.00  
One copy, three months, \$2.00

Job work of every description done promptly and in the very best and most artistic manner, at reasonable rates.

## Local Items.

Mr. J. M. McLellan, of Pinal is in town. 40,000 pounds of lime for sale at J. M. Ochoa's.

Mr. Louis Ezekiel has been appointed postmaster at Mammoth.

Father Monfort left on Wednesday for a visit to the Yekol camp.

The family of Mr. W. H. Merritt are temporarily residing at Pinal.

Mr. Fabien Moreau finally started this week for his contemplated visit east.

Mr. Pedro Charoulaeu returned from Pinal on Thursday to his ranch near Florence.

Messrs. D. S. Thomas and R. H. Martin left for a short visit to Tucson on Thursday night.

Mr. Alex. Pam, with C. Seligmann & Co., Tucson, was in town this week in the interests of his house.

Deputy U. S. Marshal H. D. Underwood came up from Tucson on Tuesday morning on a short business trip.

The quarantine has been raised and no further apprehension is felt regarding the introduction of the small pox.

Mr. N. H. Miller, of Riverside, was in town on Monday. He has bought Putnam's herd of cattle at that place.

The stage road from Casa Grande is very muddy owing to the heavy rains, and the stage makes slower time than usual.

The proceedings of the board of supervisors and board of equalization will be found on the first page of to-day's paper.

Sheriff Fryer left on Monday for a trip up the river to serve legal papers in several suits. He is expected home to day.

The board of supervisors will hear complaints from those whose assessments have been raised, at a meeting to be held on July 19.

There have been several small washouts on the Southern Pacific during the past ten days, and the eastern mails are somewhat irregular.

Mr. W. M. Griffith came down from Dripping Springs on Sunday and left the next day for Tucson and the southeastern portion of the Territory.

Mr. P. R. Brady, jr., has charge of Mr. J. M. Ochoa's branch store at Walker's ranch, and he is conducting its affairs with perfect satisfaction.

The ENTERPRISE returns thanks to Judge A. H. Dryden for courtesies extended to one of its publishers during his recent visit to Silver King.

Mr. L. K. Drisk, proprietor of the Palace Hotel, in Pinal, was in Florence last week. His visits are not frequent but they are always welcome.

The Star says Prof. Thomas Price has been examining the Mammoth mine for an English Company and is greatly pleased with its present appearance.

Mr. W. Wood Porter clerk of the District Court, has come to Santa Rosa, California, to spend a couple of months among his friends and relations.

Frank Shields has recovered three of the horses stolen from his ranch. The last, a bay at Coyote Holes had them, and a reward of \$7.50 was the consideration for their delivery.

Mr. Robert Williams, of the Williams House, Silver King, who is a veterinarian, will be found in the ENTERPRISE, is doing a fine business and evidently knows how to keep a hotel.

Mr. W. Kerwin, of Silver King, has returned from a visit to his old home in Seneca Falls, New York. It was his first visit since he left there thirteen years ago, and many an oldtime friendship was pleasantly renewed.

Special Deputy Sheriff Joseph Thompson arrested Samuel D. Meyers, who shot at Francis A. Bonner at Griffith's ranch on the night of the 10th instant, and took him to Globe last Tuesday, where he was jailed.

Hon. J. J. Devine, Deputy Internal Revenue Collector, has been in town several days visiting his family. Last night he was inducted into the mysteries of the Select Knights and endured the ordeal with heroic fortitude.

Messrs. C. W. Culver and D. J. Beasley came down from Pinal on Thursday evening. They report a very heavy fall of rain in Pinal the morning they left; the creeks and arroyos were all running full and that whole section was saturated.

Very muddy and thick water was coming down the river during the early part of the week. This silt carried down by the floods is one of the best fertilizers known, and fields irrigated once with the muddy water will yield bountiful crops for many years thereafter.

Judge B. T. Whitesides made a visit to Tucson this week, returning on Thursday. Mr. Whitesides was in company with Mr. J. M. Ochoa at Reynier camp when the latter gentleman was injured by the runaway horses he was driving, but he fortunately escaped harm.

The lower end of the Florence canal is now at a point as near the town limits of Florence as it is intended to be constructed and it will now take a more southern course over the mesa land it is calculated to irrigate. The lower camp is a little more than half a mile east of Florence.

Quite a singular shower occurred here last Monday evening, when it seemed to suddenly gather its forces directly over town and rained furiously for half an hour, while half a mile outside in every direction not a drop of rain fell. The baptism was apparently for the benefit of Florence alone.

Mr. A. P. Walbridge came up from Casa Grande on Wednesday, to pay a short visit to the county seat. Mr. Walbridge says the demand for lumber from his yards is rapidly increasing in and about Florence, which circumstance he regards as sure evidence of its increasing prosperity.

There was no eastern mail by yesterday's stage, and the train had not arrived at Casa Grande up to the hour the stage left—8 a. m. It is reported that a very heavy storm had raged all night to the eastward, and it is probable that serious washouts have occurred along the railroad

## The Mammoth

A correspondent of the Wilcox Stockman writing from the Mammoth, gives the following items of news:

There are no idle men in camp and lots of work for more. The Mammoth mill now thirty stamps, will soon be increased to one hundred, when the number of employees at the mine and mill will be trebled.

Mr. Andrew Wallace, superintendent of the mill, is a thorough and practical man, and he always achieves success with the difficult ore that the mine contains.

Mr. Charles Little, who has the management of the mine, has demonstrated his capabilities as a miner, in a manner highly satisfactory to the company.

The assayer Mr. G. H. Barnhart, will soon accept another position with the San Pedro Mining Company, of St. Louis that will start up operations on the Sample group of mines recently purchased.

Ezekiel & Sower keep the only general store at Mammoth and they do a good business; Mrs. Bettie Burch, lately of the Riverside station, has a good restaurant, while three saloons—Ed Miller's, Dick Nicholson's and Dave Heron's—keep up the spirits of the camp. John Kennedy supplies the fresh beef and also the milk consumed in the camp.

David Drew, of Hot Springs, is paying a visit to his brother Harrison who engineers an eight-mile team for the Mammoth company.

The community regrets the departure of Mr. Mark Moore and family who have gone to their ranch near Wilcox.

The youngest son of Mr. and Mrs. Geo. E. Evans—Gladstone Clarence Evans—died on Monday night, from a protracted illness, aged one year and two months and twelve days, and was buried on Tuesday afternoon. The sympathy of the whole community is extended to the sorrowing parents in their deep bereavement.

Mr. and Mrs. Evans request the sympathies of their kind neighbors and sincere friends whose timely assistance so greatly lifted their burden of woe and comforted them in their grief.

Mr. J. B. Cabeza and another gentleman started a beneficiary organization about six months ago, among the Spanish speaking people, called the Spanish-American Society, and it now numbers something over one hundred members. A regular constitution and by-laws were adopted. The principles are nearly identical with those of the A. O. U. W., and therefore capable of exerting a wide influence for good. Mr. Cabeza went to Pinal one day last week and initiated fourteen new members into its mystic rites.

## Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

While at the Reynier mines on last Monday Mr. J. M. Ochoa met with a serious accident. He was driving a strange and fractious horse in his team, which kicked and reared until it got over the pole and fell on the driver's head.

The pole broke and the tugs slipped the whiffletree and in an instant Mr. Ochoa was drawn over the dashboard by the reins to a considerable distance. He fell upon his face which was cut and bruised considerably, and his right arm was sprained. He returned to his home on Monday night, and is rapidly recovering. He will be all right again in a few days.

Mr. Geo. A. Brown left on Thursday for a visit to Sacramento where his wife and son are now residing. Mr. Brown is one of the sterling citizens of Florence and his biography during the past eleven years is a history of his life. Of late his health has not been good, the stern demands of business having gradually undermined it, and it is hoped the rest he so much needs will prove beneficial to him, and that he will return as strong and hearty as of yore. During his absence Judge Anderson attends to the duties of Wells, Fargo & Co.'s express office.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery he was well and had gained in flesh thirty-six pounds.

## Letter from Pinal.

EDITOR ENTERPRISE:—In compliance with your request I herewith send you a few notes from Pinal, although at present, owing to the absence for the summer of so many of our citizens, our usually lively burg is unusually quiet. Of course it is well known that when you see Pinal once, you see it all the time, so few and far between are its changes. From the present outlook it will at least continue in the even tenor of its way, and it is not at all a stretch of the imagination to predict that in the near future the "good old times" will again visit us.

The old Silver King continues her steady output of bullion, and as I am informed has ore in sight for many years to come.

The Reynier mines are pronounced by all who examine them to be a veritable bonanza and doubtless the Judge's highest aspirations will yet be realized and DeNoon become a thriving camp.

So far we have had very little of, at the present time, the one thing needful, rain. But the indications now are that ere many days we will have copious showers to make glad the heart of many discouraged stockmen. From a recent visit over the ranges in this vicinity I find that notwithstanding the lack of total absence of grasses that stock looks remarkably well, much better than in other portions of the county, very few having been lost.

The Rev. J. H. Gill, who for more than a year past has so ably and faithfully ministered to the spiritual wants of our people, took his departure yesterday for Dudleyville and Benson, to look after the interests of the church at those places. Mr. Gill expects to be absent two or three months and we bespeak for him a hearty welcome among the good people of the San Pedro, from whom none are more generous and open hearted.

I believe that all who have ever visited that prosperous portion of our county will bear witness to the fact, that at every ranch the latch string hangs out and the stranger is made to feel at home.

The Good Templars lodge continues to be the centre of attraction for our young people and for many of the older ones too, for that matter. They now number over fifty, among whom are many of our best citizens.

Pinal is always ready to welcome any agency that tends to elevate our people morally and socially.

Business seems to have been unusually brisk with our merchants of late.

The Fourth passed off quietly, and while our citizens lacked none of the enthusiasm of true patriots, yet it was a noticeable fact that there were no drunks nor rowdies to be seen on the streets.

In fact Pinal is fast becoming noted throughout the Territory as an unusually moral and orderly town. No wonder lawyers do not thrive here. I believe that there has not yet been an arrest this month, and as for lawsuits—well, it has been so long since we had one that we are almost ready to look upon them as things of the past.

Since writing the above the rain has begun in earnest as though it had come to stay. With an abundant rainfall this season Arizona will certainly enter upon an era of prosperity heretofore undreamed of.

## The Verdict Unanimous.

W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years standing. Abraham Hare, druggist, Belleville, Ohio, affirms: 'The best selling medicine I have ever handled in my 20 years experience, is Electric Bitters.' Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys, or Blood. Only a half dollar a bottle at J. D. Rittenhouse's."

## The Tortilla Mines.

Within full view of the house tops of our city lies scores of mines which are yet unexplored, but none perhaps give higher promise than the partially developed Tortilla group, the mines belonging to the Tortilla Gold and Silver Mining Co., now, and in the past, superintended by D. T. Elmore, whose good judgment and experience has eminently fitted him for the development of these properties. They are known as the Owl Heads Mines. Up to the present time and for nearly three years Mr. Elmore has brought in bars of bullion with unvarying regularity and made these mines "pay from the grass roots down" to where he has been driven out by water which he has no machinery at his command to raise from the ores which grow richer as they strike the water level.

Large and powerful machinery will be put in place in the course of a few months when this water will be raised and conducted in pipes down to the site of the present little mill, and as great depth is obtained it is confidently hoped that the water supply will be sufficient for a 100 stamp mill. Then we may look for great results. As the water is raised and applied to the useful purpose of running so great a mill, the miners will sink deeper in the various claims where the ore is increasing in richness, and we may look for a bullion supply that will equal the production of the best mines in the territory. With the sale of stock and the natural output of these mines the expenses have been paid; we may look for dividends to the owners that will amply reimburse them for any investment made in this promising property. A vast deal of dead work has been done, roads have been built, dump piles made, shafts, inclines, tunnels, drifts, and winzes sunk and run, not to take out ore, but to explore and find out where the mineral carrying quartz can be found in the largest and best paying quantities. All which will add largely to a proper knowledge of the manner in which to work these mines in the future.

The double compartment shaft now being sunk will add largely to the value of these mines. It is said that all the ore taken out from between the walls of the ledges mentioned will go from \$75 to \$150 and upwards per ton. Mr. Elmore came in yesterday and brought in a ten days' run—two bars worth \$5,000; at rate of \$300 per day.

About \$150,000 have been stamped out by this little mill in the past and all from the ore above the 100 foot level.

This itself is sufficient guarantee of the good quality of the mines. When properly developed still better results may be anticipated. The proof of the pudding is said to be in the eating of it, and judging the hereafter by the heretofore there can be no doubt that the Tortilla mines will cut a wide swath in the prosperity of Southern Arizona.—Citizen

## 200 Laying Hens for Sale.

Two hundred laying hens for sale at my ranch. Price, \$5 per dozen.

H. G. BALLOU.

## Arizona News.

The rains have put out the timber fires in the Pinal Mountains.

Mrs. Andrew Blake, of Tonto Basin, is said to have suicided by shooting herself.

The Indians on the reservation are still looting and sullen, but no outbreak is apprehended.

George Rayfield, ex-Mayor of Tucson, has leased the new Carleton Hotel in San Diego, Cal.

Dana Harmon, late principal of the Tucson public school, has gone to California to reside.

Victor Mosier and Peter Mathews of Pima county, have been adjudged insane and sent to Phoenix.

The police force of Tucson has been reduced by half. Only two are now employed, the chief and his "force."

The Cochise board of supervisors have decided to pay the District Judge \$500 per year out of the county treasury.

The narrow gauge bridge crossing the large arroyo at Tucson, was badly washed out during the recent heavy rains.

City Attorney A. C. Baker of Phenix says the charter gives the council no power to grant an exclusive franchise.

The Gila county supervisors have indefinitely postponed any further consideration of aid to the Narrow Gauge railroad.

As high as five carloads of firewood per day are shipped from Flagstaff to Los Angeles on returning fruit cars. It is said for \$10 per cord in Los Angeles.

Eating canned salmon poisoned the family of R. L. Williams, at Tempe, last week. They all recovered from the effects after taking the proper antidotes.

It is rumored that Al Sieber's wounds made by the Apaches, have taken an unfavorable turn and if the hot weather continues his chances for life will not be great.

On July 5, near midnight, Henry Nevada shot and killed a fellow soldier named James O'Kane, of troop M. 4th cavalry at Globe. The victim was in bed when killed.

J. J. Chatham, an experienced journalist, has taken charge of the Nogales News. Jim is a talented writer and if properly supported will present a rousing good paper.

Gov. F. A. Tritle has secured a lease of the United Verde mining properties and furnaces, at Jerome, Yavapai county, and will at once start up the work of extracting ore and reducing it.

Chief Justice Wright has gone to Missouri on a short visit of two or three weeks. When he returns he will bring his wife and family to Prescott. Judge Barnes and family have gone to the Pacific Coast for the summer.

Suit has been entered in the District Court by Dick Starr vs. John Watson, A. P. K. Safford, James Teale, J. S. Vossburg, Charles Hudson, and T. L. Stiles, assignees, to recover \$4,716.75 deposited in their bank August 14, 1879.

Eli Sears lost the cut of 65 acres of grain, about 65,000 pounds, by fire at Tempe, on Saturday of last week. The fire is said to have been started by Pima Indians who were seen looting about the place just previous to the blaze.

John McCarron, of Prescott shot and killed himself last Saturday afternoon, in the Keystone saloon. He had been on a protracted spree. Not more than eighteen months ago his wife's former husband, Mr. McCarron, was killed in a similar way upon the same spot.

Mr. Charles Lewis has received his lumber and is busy fitting up his building adjoining the American Bakery. It will also be used as a bakery and eating rooms in connection with his present facilities, and a large oven will give him additional advantages to supply the increasing demand of his customers.

Mr. D. H. Snyder was down from Riverside yesterday for supplies. He is developing some very excellent mining claims in that section, showing large bodies of low grade ore most of it carrying from 25 to 35 per cent lead. Messrs. D. W. McCallen and Thos. Haley are likewise opening up large properties that will eventually prove very valuable. Mr. Snyder says very heavy rains have visited his locality.

## Sorghum Machinery.

In selecting machinery of any kind our friends should be careful they get the best for their money; especially is this so of machinery for making up molasses and sugar. The old firm of Chapman & Co., Madison, Ind., has been before the farmer public with their Mills and Evaporators for nearly 30 years and still lead the van. This shows there must be merit in their goods. It will pay our readers to get their Catalogue and prices. See their advertisement elsewhere in this paper.

Judge J. D. Reymert and wife went to Casa Grande on Wednesday, en route to California for a couple of months' rest and recuperation. The Judge has been hard at work for several years in the mountains and this is the first opportunity he has found to take a rest. He has resigned his position as superintendent of the Reynier mines and is succeeded by Judge J. D. Walker, but he still remains president of the company.

Mr. J. V. Wilson left yesterday for Louisiana. He will go to Bayou Lafourche about sixty miles below New Orleans, to test a cure for the leprosy he has discovered. There are many cases in that place and he will have a good opportunity to give his cure a thorough and severe trial. He has already made one or two cures and feels satisfied that he will meet with complete success. He will be absent about six weeks, and it is hoped that his most sanguine expectations will be realized.

Mr. Wm. A. Robard, of Casa Grande, was so badly beaten by a hack driver in Los Angeles on the 6th, in an altercation that he died on the 11th from the effects of his injuries. A post-mortem examination showed that death was due to rupture of the heart. His wife was also with him in Los Angeles. Deceased was about 39 years of age and was a co-owner in the Jack Rabbit mine, a property that has yielded handsome returns from the ore shipped during the past three or four years.

Drew & Bamrick are the mail contractors to Silver King and Pinal. The best stock and quickest time made.

## Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, Tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by J. D. Rittenhouse.
